# The Morning Assembly

The Morning assembly is a forum where all the children get together and begin the day on a calm note preparing themselves for a day of an amalgamation of academics and activities. It gives the students a platform to inculcate moral values that can go a long way in their harmonious development. The students get a chance to develop the 21<sup>st</sup> century skills by expressing their opinions, talking about current affairs and building up on their general knowledge.

In order to increase the efficacy, the pattern of the assembly is planned thematically where each student will be trained by the teachers and given an opportunity to come on the stage to present their skills pertinent to the theme assigned for that month. The theme this year is “*Give me wings, I want to fly*” wherein the students, the future global citizens; will explore and analyses the unknown aspects of the various countries of the world.
